SUMMARY

Aspiring Web Developer, Final-year B.Tech Computer Science student at GMR Institute of Technology, Rajam, passionate about full-stack web development **responsive, user-friendly websites** using **HTML, CSS, JavaScript, and PHP**. Actively building **real-world full-stack projects**, including **MERN stack applications**, to sharpen development skills. Seeking opportunities to apply technical knowledge in a **collaborative, growth-oriented environment**.

EDUCATION

B.Tech Computer Science and Engineering
GMR Institute Of Technology

CGPA: 6.75
2022 – 2026

PROJECTS

Full Stack eCommerce Platform | [GitHub](#)

May 2025 – June 2025

- Developed a full-featured **eCommerce website** using **HTML, CSS, PHP**, and **MySQL**, supporting **user authentication, product management, shopping cart, and order handling**.
- Designed a **responsive frontend UI** with **HTML/CSS**, ensuring seamless navigation across devices.
- Structured and maintained a **MySQL database** with proper **relational integrity** for users.

MERN Stack Real Estate Platform | [GitHub](#)

Feb 2025 – Apr 2025

- Built a full-featured **real estate web application** using the **MERN stack** — **MongoDB, Express.js, React.js, Node.js**.
- Implemented **property listing features** with **image upload, location-based search, and filtering options**.
- Designed a **responsive UI** using **React** and styled with **Tailwind CSS** and **Bootstrap**.
- Integrated **Cloudinary/Firebase** for image storage and used **MongoDB Atlas** for cloud database management.

INTERNSHIPS

Cyber Security

June 2024 – July 2024

Software Intern [View Certificate](#)

Krify Software Technologies, Kakinada

- Completed a one-month internship focused on **Cybersecurity fundamentals** and real-world applications.
- Gained hands-on experience in **threat detection, prevention**, and identifying **system vulnerabilities**.
- Applied **machine-learning models** for **phishing detection** with **XAI** methods such as **SHAP** and **LIME**.
- Performed **security assessments** and proposed improvements to strengthen overall system defence.

SKILLS

Technical Skills: C, C++, Python, Angular.js, Node.js, SQL

Stacks / Tools: MERN Stack, PHP Stack, Git, GitHub, VS Code

Soft Skills: Teamwork & Collaboration, Effective Scheduling, Workflow Optimisation, Communication

Interests: Photography, Creative Writing, Travelling
